PRESENT A LIVE
VIRTUAL FORUM**

Access Opportunities - US India Partners for Growth

"The US is India's most significant and reliable partner internationally and also has been India's largest trade partner. The webinar will focus on post-pandemic cross-border business and trade opportunities between the two countries. As well, we will concentrate on available support and resources from the government agencies, chambers and the mutual business community. The event is designed to connect companies including entrepreneurs seeking expansion opportunities, business partners, buyers and government resources."

Top sectors of import/export growth in each country

How to target best trade/business investment opportunities

How to find and connect with the right partners and prospects

How to find top resources and support from both countries
