

NJ Child Care Facilities Improvement Program - Phase 2

Eligible Purchases and Installation

- ✓ Your total costs must be between \$10,000 - \$20,000
- ✓ Items will be purchased after your grant agreement is signed **by NJEDA**.
- ✓ Items are to be used **only** for child care purposes and support:
 - **Health, safety and/or accessibility**; or
 - Improving the **quality of the child care environment**

What is Furniture, Fixtures or Equipment (FFE)?

Items that, if removed, won't damage the permanent structure and fixtures of a building.

Must be used for business purposes.

Must have a lifespan of three years or more.

What kinds of things fall under Health, Safety, and Accessibility? <i>These are examples. Eligible items are not limited to what is listed below</i>	What kinds of things fall under Quality of Child Care Environment? <i>These are examples and eligible items are not limited to what is listed below</i>

What is considered an ineligible purchase?

				
<p>Your total costs are less than \$10,000 or more than \$20,000</p>	<p>You bought it before signing an agreement</p>	<p>Items not for the care of children</p>	<p>Consumables or items of lifespan of less than 3 years (e.g. crayons, paper, diapers, etc.)</p>	<p>Repairs, renovations, or construction</p>

Furniture, Fixtures, and Equipment Installation

Not all installation costs can be covered by this grant and will depend on:

- How much does the item cost?
- Does installation require using a construction professional or trade worker?
- Does the cost of the item + cost of the installation = More than \$1,999?

If an item **plus** the cost to install that item is more than **\$1,999** the item is in eligible. Do not submit this item as part of your application.

Important Information: If you are approved for an item that requires installation, and the total cost (item + installation cost) increases over \$1,999, the item will become ineligible. You will be responsible for the full cost of both the item and the installation, as the approval of that item was based on the original estimated costs. **To avoid this scenario, we recommend that you do not request any items requiring installation where total cost might exceed \$1,999.**

Here are three examples of installation costs:

This example would be eligible. There is relatively low risk that the installation costs would increase so much that the total cost would be over \$1,999.

*This example would be eligible, but the **provider should carefully consider the risk** that installation costs could increase from the quoted amount, which would likely make this item ineligible by bringing the total cost to over \$1,999.*
